

Trading with passion

Universe Trading is a premium trading system in the forex and crypto market.

AI based trading software, monitored and optimized by our experienced traders

24/5 fully automated trading for the customer

No entry or monthly fees!
Start for free with us and build a passive income through our software

Universe Trading is financed only by profit sharing

As a customer, you keep 60% of all profits that our software generates for you, we keep 40%.
This means: We only grow when our customers earn!

Our Trading Strategies

Original Strategy

The first product of Universe Trading, hence the name "Original".

Tested over the past years and delivered consistent returns.

TRelax Strategy

Our newer, more active strategy that executes more trades and has a more conservative approach to risk.

Since it is more conservative than the original strategy, the return and the overall risk fluctuate less.

Check our verified track record here: tyu-trade.com/original
